

ALIF RAHMAN MAULANA

Fullstack Developer

Semarang City | rahmanalifm21@gmail.com | +62 812-2543-7524 | Linkedin | GitHub | Portofolio

PROFESSIONAL SUMMARY

Fullstack Developer with **3+ years** of experience building web and mobile apps with **React, TypeScript, Next.js, Vue Express JS, and PostgreSQL**. Maintained a school management platform (web and Android) used by 100+ daily users and built REST APIs during an internship at Diskominfo Kota Semarang. D3 Informatics Engineering, GPA 3.71/4.00.

PROFESSIONAL EXPERIENCE

Fullstack & Mobile Developer | Hybrid | KB-TK Permata Ceria Bangsa | May 2023 – September 2026

- Developed the Smart-PCB school management platform, integrating a responsive web dashboard and Android application.
- Built **10+ core modules** covering student records, QR-code attendance, tuition monitoring, parent access, and automated reports.
- Integrated RESTful APIs, Supabase/PostgreSQL, role-based access control, and Firebase Cloud Messaging.
- Deployed to production serving **100+ daily active users**..

Web Developer & IT Support | Intern | Diskominfo Kota Semarang, Indonesia **|** June 2025 – December 2025

- Developed backend modules for the KominfoMuda internship management platform using **Laravel 12 and PHP 8.2**.
- **Implemented RESTful API** endpoints, request validation, error handling, and relational database queries.
- Performed API testing, debugging, and Git-based collaboration to improve application reliability.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, PHP, SQL, Dart, HTML, CSS
- **Frontend:** React, Next.js, Vue.js, Nuxt.js, Tailwind CSS, Responsive Design
- **Backend & APIs:** Node.js, Express.js, Laravel, RESTful API, Authentication, RBAC, Request Validation
- **Databases:** PostgreSQL, MySQL, Supabase
- **Mobile:** Flutter, Dart, Firebase Cloud Messaging
- **Tools:** Git, GitHub, Postman, Firebase, Vercel

PROJECTS

Smart School Management Platform (Smart-PCB)

Technologies: *React, TypeScript, Supabase, PostgreSQL, Tailwind CSS, Firebase*

- Designed relational data structures and CRUD workflows for student, parent, attendance, and payment records.
- Implemented role-based access and integrated web-to-backend data flows.

SITAMA – Internship Management Platform & Mobile App

Technologies: *Flutter, Dart, Laravel 12, PHP 8.2, MySQL, Firebase, Postman, Git*

- Developed a cross-platform mobile app with activity logbook uploads, GPS-based check-ins, and push notifications.
- Integrated backend APIs for applicant verification and internship evaluation workflows.

EDUCATION

Diploma (D3) Informatics Engineering| Politeknik Negeri Semarang | *Augustus 2023 – September 2026*

GPA : 3,71 / 4,00

CERTIFICATION

- **Junior Web Development** — Dicoding Academy 2025
- **Database Design** — Oracle Academy 2024
- **MikroTik Certified Network Associate (MTCNA**) — MikroTik Academy 2026
- **Junior Network Administrator** — LSP-TD 2023
